Module	Section	Enhancement
Contacts	Appointments	You can now toggle between <b>Active</b> and <b>Inactive Appointments</b> . If the Appointment has a date in the <b>Expires</b> field, it will be dropped to an inactive status.

### Changes to Agency Integrator for August 23, 2025

Module	Section	Change
Administration	Data Replicator	You can include the <b>Duration</b> field in your <b>Data Replicator</b> file.
Administration	Requirement Management	Previously, when accessing the <b>Requirement Management</b> screen, you had to make a selection before navigating to another tab. This is resolved; you can navigate away as expected without getting stuck.
Administration	User Association	Previously, when accessing the <b>User Association</b> screen, you had to make a selection before navigating to another tab. This is now resolved; you can navigate away as expected without getting stuck.
General	Command Center	When creating/modifying a <b>Command Center Filter</b> and selecting multiple check boxes in <b>General Status</b> , you were getting no results. This is now resolved.
General	Command Center	Previously, when a case manager would remove the <b>User Preference</b> "informal to show on the command center" it would still display. This is now resolved.
