

02-17-2026 DocFast Release Notes

Product release notes for all products can be viewed on the iPipeline [Customer Portal](#). To receive automatic notifications when new release notes are published, log onto the iPipeline Customer Portal, go to *Resources > Release Notes* and select the product(s) that you would like to receive notifications for.

DocFast: 13.1.0 RELEASE

Release Date: February 17, 2026

Note:

- *Automatic feature* = feature is automatically available with base upgrade
- *Requires Activation* = feature must be turned on / configured (an additional cost may apply)
- *Requires Changes* = feature requires the client to make changes to existing implementation to avoid errors / loss of product performance (see the [Requires Changes](#) section below for details on any required actions).

FIXES

- **Custom Role Names Not Displaying On Hover:** (*Applies to carriers with custom role names*)
Resolved an issue where custom role names were not showing correctly when hovering over role icons on the policy detail page. The hover text now displays the correct custom role name.
- **Group - Agent Delivery Counts Incorrect:** (*Applies to carrier using Group functionality*)
Corrected an issue on the main dashboard where agent delivery counts were being displayed inaccurately. The agent delivery totals now reflect the correct values.
- **Document Data Mapping Missing When Creating Cases via Manual UI:** (*Applies to carriers using the Manual UI to create cases with DocuSign data mappings*)
Fixed an issue where cases created through the Manual UI could cause some consumer-provided data in the eDelivery workflow to be excluded from the document mapping process. All relevant data now maps correctly to DocuSign templates.
